

Berea City School District

Bylaws & Policies

8510 - WELLNESS

As required by law, the Board of Education establishes the following wellness policy for the Berea City School District as a part of a comprehensive wellness initiative.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

Schools alone, however, cannot develop in students healthy behaviors and habits with regard to eating and exercise. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

- A. With regard to nutrition education, the District shall:
 1. Nutrition education shall be included in the Health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
 2. Nutrition education shall be included in the sequential, comprehensive Health curriculum in accordance with the curriculum standards and benchmarks established by the State.
 3. Nutrition education shall be integrated into other subject areas of the curriculum, when appropriate, to complement, but not replace, the standards and benchmarks for health education.
 4. Nutrition education standards and benchmarks shall be age-appropriate and culturally relevant.
 5. Nutrition education shall extend beyond the classroom by engaging and involving the school's food service staff.
 6. Students will be encouraged to eat breakfast.

7. Students will be encouraged to choose the type A lunch.

B. With regard to physical activity, the District shall:

1. **Physical Education**

- a. A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the physical education academic content standards and benchmarks adopted by the State.
- b. The sequential, comprehensive physical education curriculum shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge, attitudes, and skills necessary to engage in lifelong, health-enhancing physical activity.
- c. Planned instruction in physical education shall be sufficient for students to achieve a proficient level with regard to the standards and benchmarks adopted by the State.
- d. Planned instruction in physical education shall promote participation in physical activity outside the regular school day.
- e. The sequential, comprehensive physical education curriculum shall stress the importance of remaining physically active for life.
- f. The K-12 program shall include instruction in physical education as well as opportunities to participate in competitive and non-competitive team sports to encourage lifelong physical activity.
- g. Planned instruction in physical education shall require students to be engaged in moderate to vigorous physical activity for at least fifty percent (50%) of scheduled class time.
- h. On an annual basis, physical education teachers shall review and affirm receipt of the Ohio Department of Health's concussion information sheet.
- i. Physical Education teachers shall remove from class

participation any student who exhibits signs, symptoms, or behaviors consistent with having sustained a concussion or head injury. The Principal and/or teacher shall notify parents or guardians about the possible concussion or head injury.

- j. Any student who has been removed from physical education class participation because s/he has exhibited signs, symptoms, or behaviors consistent with having sustained a concussion or head injury shall not be permitted to return to physical education class until the student's condition is assessed by a physician, and the physician gives the student written clearance that it is safe to return to class.

2. **Physical Activity**

- a. Physical activity should not be employed as a form of discipline or punishment.
- b. Physical activity and movement shall be integrated, when possible, across the curricula and throughout the school day.

C. With regard to other school-based activities the District shall:

1. The schools shall provide at least ten (10) minutes daily for students to eat.
2. The schools shall schedule mealtimes so there is minimum disruption by bus schedules, recess, and other special programs or events.
3. The school shall provide attractive, clean environments in which the students eat.
4. Activities, such as tutoring or club meetings, shall not be scheduled during mealtimes, unless students may eat during those meetings.
5. An organized wellness program shall be available to all staff.
6. The schools may use environmentally friendly practices, such as the use of locally grown foods and non-disposable tableware and dishes.

7. The schools may provide opportunities for staff, parents, and other community members to model healthy eating habits by dining with students in the school dining areas.
8. The schools may demonstrate support for the health of all students by hosting health clinics and screenings and encouraging parents to enroll their eligible children in Medicaid or in other children's health insurance programs for which they may qualify.
9. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
10. Classroom parties and events are not to be scheduled to exclude students participating in the regular breakfast and lunch program.
11. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.

D. With regard to nutrition promotion, the District shall:

1. encourage students to increase their consumption of healthful foods during the school day;
2. create an environment that reinforces the development of healthy eating habits, including offering the following healthy foods that comply with the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards:
 - a. a variety of fresh produce to include those prepared without added fats, sugars, refined sugars, and sodium;
 - b. whole grain products – half of all grains need to be whole grain-rich upon initial implementation and all grains must be whole grain-rich within two (2) years of implementation;
 - c. fluid milk that is fat-free (unflavored and flavored) and low-fat (unflavored);
 - d. meals designed to meet specific calorie ranges for age/grade groups;
3. eliminate trans-fat from school meals;

4. require students to select a fruit or vegetable as part of a complete reimbursable meal.

Rewarding children in the classroom should not involve candy and other foods that can undermine children's diets and health and reinforce unhealthy eating habits. A wide variety of alternative rewards can be used to provide positive reinforcement for children's behavior and academic performance.

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy [8500](#), entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages, including but not limited to the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, as well as to the fiscal management of the program.
- B. As set forth in Policy [8531](#), entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).

The sale of foods of minimal nutritional value in the food service area during the lunch period is prohibited.

- C. The sale of foods and beverages to students that do not meet the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards to be consumed on the school campus during the school day is prohibited.
- D. All food items and beverages available for sale to students for consumption on the school campus (any area of property under the jurisdiction of the school that is accessible to students during the school day) between midnight and thirty (30) minutes after the close of the regular school day shall comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, including, but not limited to, competitive foods that are available to students a la carte or as entrees in the dining area (except entree items that were offered on the National School Lunch Program (NSLP) or School Breakfast Program (SBP) menu on the day of and the day after they are offered on the NSLP or SBP menu), as well as food items and beverages from vending machines, from school stores, or as fund-raisers, including those operated by student clubs and organizations, parent groups, or boosters clubs.
- E. The food service program will strive to be financially self-supporting; however, if it is necessary to subsidize the operation, it will not be through the sale of foods with minimal nutritious value.
- F. The food service program will provide all students affordable access to the varied and nutritious foods they need to be healthy and to learn well.

- G. The school food service program may involve students, parents, staff, and/or school officials in the selection of competitive food items to be sold in the schools.
- H. The food service program shall be administered by a qualified nutrition professional.
- I. The food service program shall be administered by a director who is properly qualified, certificated, licensed, or credentialed, according to current professional standards.
- J. All food service personnel shall receive pre-service training in food service operations.
- K. Continuing professional development shall be provided for all staff of the food service program.

The Board designates the Superintendent and/or designee as the individual(s) charged with operational responsibility for measuring and evaluating the District's implementation and progress under this policy. The Superintendent and/or designee shall develop administrative guidelines necessary to implement this policy.

The Superintendent shall appoint a District-wide Wellness Committee that includes parents, students, representatives of the school food authority, educational staff (including physical education teachers), school health professionals, members of the public, and school administrators to oversee development, implementation, evaluation and periodic update of this policy. The Wellness Committee shall be an ad hoc committee with members recruited and appointed annually.

The Wellness Committee shall be responsible for:

- A. assessment of the current school environment;
- B. review of the District's Wellness policy;
- C. presentation of the Wellness policy to the Board for approval;
- D. measurement of the implementation of the policy; and
- E. recommendation for the revision of the policy, is necessary.

Before the end of each school year, the Wellness Committee shall recommend to the Superintendent any revisions to the policy it deems necessary and/or appropriate.

The Superintendent shall report annually to the Board on the Wellness Committee's progress and on its evaluation of the policy's implementation and areas for improvement, including status of compliance by individual schools and progress made in attaining the policy's goals.

The Superintendent is also responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the Superintendent shall include information in the student handbook and post the policy on the District's website, including the Wellness Committee's assessment of the policy's implementation.
